Very soon the case file will be downloaded against your name and social. After giving several notifications we did not get any response from your side.

We will consider that you are ignoring this matter. This is your last and final chance to settle this case. If you don't take it seriously, we will surely take hard steps against you. And you will be the person who will be only responsible for the legal consequences. Your credit score will be affected.

If we did not receive any response from your side within 48 Hrs. We will proceed further with legal charges against your name and social security number without any notification.

Do update us with your good intention that you want to resolve this case or you want to dispute. Once again, if we did not receive any response from your side within 48hrs. We will download the case file and you have to appear on that date.

If you have any questions about this debt, please contact us through email immediately.

Thank You, Stay Safe

Best Wishes.
